Collage

Gallery: MBBY

Course Name: It's Alive

Grade Level: Pre-K

Activity: Pre

Title: Insect Collage

Approximate Time Required: 30 min.

Vocabulary:

Life cycle	Insect Body Parts
Egg	Head
Larva	Thorax
Pupa	Abdomen
Adult	Insect Names

Objective:

Students will learn about insects by creating a collage of insect pictures.

Materials Needed:

Scissors Paper
Magazines
Clip-art insect pictures

Procedure:

1. Handout materials and invite students to identify and clip pictures of insects.
2. Glue pictures onto paper creating a collage.
3. Generate a discussion regarding things that are often confused as insects. Worms, spiders, and centipedes are not insects. All insects have 3 body parts, 6 legs, and 3 or 4 stages of life.

Observations:

Share what the students learned

Evaluation:

Finished collages should have many pictures of different types of insects.
